

Position: DevOps (Development and Operations)

Level:

Intermediate-Senior

Description:

Oral4D Systems is looking for an Intermediate-Senior DevOps Specialist to join our team. This individual is a technical guru, knowledgeable in databases, servers, and server automation (scripting). As well as experience with the Web, diagnosing web and web application issues, cloud applications and platforms.

What you will be doing:

- Streamline and automate our deployment processes
- Leverage state-of-the-art tools to employ best practices and efficiently perform duties and monitor solutions
- Adhoc tasks such as building sales and demo environments
- Perform more complex migrations
- Assist with more technical/web concerns surrounding WalkMe as a tool
- Provide support to internal and external clients

The ideal candidate will be a self-starter who understands the dynamic start-up culture and environment.

We thank all applicants but only those selected for an interview will be contacted.
